COUNTY E.M.A. TO GIVE AWAY **HEAT INDEXES AND WIND-CHILL CHARTS AT THE FAIR!**

(LIMA, OH) – Have you ever wondered how to calculate the “wind-chill” factor or the “heat index”? Well wonder no more. The Allen County Emergency Management Agency (EMA) will be offering free “Wind-chill/Heat Index” charts at this year’s Allen County Fair, August 17-25.

“These are extremely popular items, and we’re pleased to be able to give them away this year.” Said Russ Decker, county EMA director. “Simply stop by the agency’s mobile command unit inside the main gate and ask for one.”

“Members of the county EMA Response Team will staff the mobile command unit every day of the fair this year providing the most current and up-to-date weather information, including live, color, Doppler radar for use by fair officials.” Decker said. “We welcome fairgoers to visit the command unit and see firsthand the great emergency assets available here in Allen County.”
